# A MESSAGE FROM THE MCINTYRE FAMILY

We hope that our 2025 sale offering is something you are excited about as we are. This year we have 25 bulls on offer in our annual Sale, as well as the inclusion of 15 females. We had aimed to take a large string to the Limousin National Show & Sale and most of these females were being set to go but unfortunately a serious finger injury to Andrew in October sent those plans flying out the window at a rapid rate of knots with his recovery time being potentially months and not weeks. They were selected on phenotype with our core values the main priority, a mix of outcross pedigree's and EBV's so we decided that if we were happy to take them at the National, why not still make them available and offer them thought our annual Sale. While it is disappointing that we won't be at the National as an exhibitor it makes for a great opportunity for many to still purchase our genetics. Our bull draft comprises of 25 bulls from a variety of imported and domestic sires including Chateau bred proven sires. Sons of Southpaw S30, New Generation N79 & Qualification Q66 feature in the draft with some new and highly proven exciting sires in Gentry, Jock and Hardcore. All lots have had DNA submitted for Parent Verification, with a couple still being processed which will be indicated sale day. We have also tested the draft and offer 7 Homo Polled Bulls.

Through that DNA work, the implementation of genomics has had an impact on our EBV's on the entire draft, which are changing very regularly. That being said, we are impressed by what we consider to be our lead bulls still maintaining traits in the top end of the breed for those highly important traits of a short gestation with high growth rates and ending with a heavy carcass weight, which is what we get paid on in

the long run.

In the female offering there is an even mix of colours and age groups to suit everyone's joining programs from cow families that have been highly influential in our herd being donor cows, producing National quality progeny, or mothers of high priced lots at previous years sales. While there is some females we believe would make great show heifers and potential donor cows, there is one heifer in the draft that will cause most to have a wry smile when they discover she belongs to Alana and Olivia and I'm not too popular for cataloguing, but we wouldn't offer a female that we wouldn't keep for ourselves and this youngster is definitely one for the front paddock.

It is with the greatest pleasure to put forward this year's sale offering to you and look forward to seeing you sale day, but if you can't be there on the day pre sale inspections are welcome any time by contacting Andrew on 0428191282.

John & Bev, Andrew & Jenna,  
Alana & Olivia

(TRAITS OBSERVED: GL, BWT, 200WT, 400WT, 600WT, SS, DOC, Genomics)

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

A real powerhouse to open the sale with U13 is Homo Polled, moderate frame, super quiet and as wide set as we can make them. Out of our donor cow R15, whose first calf sold in our 2023 sale to Spring Creek Limousins for \$7,000, with a maternal sister in this year's sale, Lot 33. With an attractive data set and a great nature, U13 is a bull that ticks a lot of boxes. A bull for genuine cattlemen with definite Stud sire potential. Semen retained.

2

## CHATEAU ULVERSTONE U51 (PP B AA)

**TATTOO:** JWMPU51    **BORN:** 15/4/2023    **GRADE:** Pure

**DAM: CHATEAU LUNA ECLIPSE (P A AA)**

CHATEAU HIGH FLYER (JWMFH50) (P A U)

Ulverstone U51 has been the standout since birth and is a bull with true Sire appeal. Beautifully natured, a smooth & soft muscle pattern that's long-bodied with genuine weight gain and performance. A Homo Polled Black sire that we feel is our best son of Q66 who sold at the Limousin National for \$18,500. U51 is from the same cow that produced Queenscliff Q22, selling for \$14,000 in our 2021 sale to Lava Vale Limousin's. We have used U51 to back up our AI program in the Autumn. Semen retained.

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

Urban Legend is a docile bull that will put some serious weight into his calf crop. Smooth polled, soft coated that's loaded with volume and red meat. A favourite since an early age, his calves will come early with rapid growth for those looking to target specific weight ranges. Maternal brother sold to the Western District in 2023 for \$7,000. His full sister will open our female offering at Lot 26.

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

The youngest bull in the sale, U88 is an easy fleshing Southpaw calf with some extra horsepower. A soft skinned bull that is big topped, deep bodied and thick behind. Dam K59 produced Nightwatchman N89, a bull we used over heifers with sons in our 2022 sale, 2 of which sold for Stud duties. If you need a black bull to give you weight and shape, U88 should be on your shortlist.

A Q66 daughter that's long and feminine with a gentle nature. U20 is an easy doing heifer that always makes you have a second look at her. Joined in November to JYF Hamilton on 18/11/24 for a Homo Polled calf and from what we've seen at Tanybryn Park and Tooronga should be pretty exciting.

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

V3 is Alana & Olivia's heifer and I'm in the bad books for putting her in the sale. While very hard to part with V3 is a powerful, heavy built heifer that has a beautiful loose soft skin, fantastic head carriage and volume and capacity to burn. A beautiful nature, this Homo Polled heifer commands attention from every angle. From the same cow line that produced Next Generation N79 topping our 2019 sale to Rigdale Limousin's, Pampered Girl P72 Reserve Junior Champion at the National selling to Brentvale Limousin's in S.A. and Jackknife, past herd sire at Garren Park to name a few. Donor cow prospect and front paddock female who we would love to flush one day.

40

## CHATEAU OPAL U22 (P B U)

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

Opal U22 is a clean coated, smooth made heifer that is fine through the front end but still big in her midsection. Her dam M79 produced Recall, top selling in 2022 selling to \$12,000 and Thunderstruck 2nd high priced at \$10,000 last year, whilst Granddam was a full sister to Jose Cuervo who topped out Inaugural sale at \$10,000. By Kingswood who has bred some wonderful females for Brentvale. Due to calve by the sale to Talisman T2, see supplementary sheet for details.

Thank-you for  
your attendance and  
support today

## **BUYER DELIVERY INSTRUCTIONS**

At the completion of the sale we ask all successful purchasers to attend the office and inform us of your delivery instructions.

## **LOOKING AFTER YOUR NEW PURCHASE**

As our cattle are run in groups they are used to having other stock around and are never left in yards by themselves. Upon arrival please ensure that your purchase has company (a steer or cow) and plenty of food whilst they survey their new surroundings. Be aware that this is a new environment to them and will take a while to get use to both you and your farm.

# UNDERSTANDING EBVs

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

EBVs are provided for the following traits:

**Gestation Length:** ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

**Birth Weight:** indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

**Milk:** a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

**200, 400 & 600 Day Weight:** give us an estimation of the animal's genetic potential for growth.

**Docility:** is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

**Comparing EBVs:** The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed.

## BREED AVERAGES EBV's FOR 2023 BORN CALVES

Gest.	BWt	Milk	200wt	400wt	600wt	Doc
-3.0	+1.4	+8	+22	+38	+53	+47

**Accuracies:** are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

**Disclaimer:** The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

## **EXPLANATION OF SUFFIXES**

### **HORN STATUS:**

(PP) Homozygous Polled by DNA test or pedigree as

both parents confirmed Homozygous Polled

(P) Polled

(Ps) Polled with Scurs

(H) Horned

### **COLOUR:**

(BB) Homozygous Black by DNA test or pedigree as

both parents confirmed Homozygous Black

(B) Black

(A) Apricot

(R) Red (not apricot).

### **F94L GENE:**

(AA) 2 copies by DNA test or pedigree as both parents confirmed to carry 2 copies

(AC) 1 copy by DNA test

(CC) No copies by DNA test

(U) Un-tested

# THE SCURRED GENE IN CATTLE

Some polled cattle have scurs. Scurrs are incompletely developed horns that are generally attached only to the skin. They range in size from tiny scab-like growths to large protrusions almost as large as horns.

Therefore, polled cattle can be smooth-polled or scurred-polled (polled but expressing scurs). Many breeders have the mistaken idea that scurs represent an error in transmitting the horned characteristic. That's not the case. Scurred cattle should be classified as polled since they do have a polled gene. Only polled animals can express the scurred trait.

## CATALOGUE DISCLAIMER

While all care has been taken in compiling this catalogue however responsibility lies with prospective purchasers to determine its accuracy.

Chateau Limousins reserves the right to retain 1/4 semen share for any lots offered for sale for in herd use only, with no further call on the bull. Collection to occur prior to delivery at vendors expense.

We reserve the right to make adjustment to sale order, substitutes to sale lots which will be notified to intending buyers via supplementary sheet on sale day.

# GETTING TO CHATEAU LIMOUSINS

1090 Wangaratta-Eldorado Road,

LONDIGAN VIC 3678

## FROM HUME FREEWAY

Take Carragarmungee Estate Road travel 8km, turn left onto Wangaratta Eldorado Road, first property on the right. (Approx 15km from Wangaratta)
